

DAS (R)EINE VOLK - FOLGT DER (R)EINHEIT!
(R)EINHEITSGEBOT #15

ENGLISH TRANSLATION

To achieve perfect UNITY in PURITY, with our creation, our BEING, for one part, but also with the ALL-SPIRIT, it is first of all necessary to understand the contexts, in which we are living these days and, here a striking difference, to establish the big picture of life in past time.

The land is burning, the terrible "yellow lamp" does its satanic work. While again and again the terrible and UN-educated sun-worshippers do their work of destruction, even emaciated and dried out in the appearance of their skin, the surface of Irtha struggles for survival. Clouds are needed in the summer to provide us with sufficient water, in winter should be sunshine! Everything is twisted, but at that HEALTHY TIME back then, when the 60 km high trees rose into the clouds as antennas, at whose branches the clouds poured out, in which they also gladly remained until their dissolution, Irtha was very well. At that time everything was better, mankind was not so stupid.

Resourceful, the enemies of life appointing themselves as determining gods, the "children of the devil" (Yahweh) destroyed those giant trees, put dwarf trees in front of us, which are not in the least able to fulfill the holy task of the giants of past time. This, my dear friends, is not a volcanic crater, there on the right, but a petrified tree stump, under whose stone crust the hardwood of the former tree is located >>>

Trees, giant trees, are the salvation of us all, the salvation of our home, they determine the climate, they are WORLD CHANGING and of such enormous importance for future life, that not enough attention can be directed to their planting and the associated fertilization. The task of all of us must therefore be to plant the high-quality "TREES OF LIFE" with their superfood – the walnut –, as many as possible. No matter whether at the roadsides or in your own garden, the little money, that is needed for the harvesting and raising of further trees from our own stock, should invest each of us. But remember: Without the active fertilizer, the bio-waste, these trees grow at best only 30-35 meters high, too low to rise into the clouds. According to botany researcher Risgaard, our goal should be to reach a growth rate of six or more meters per year in height and 350 - 400cm in width. With what result?

If trees are healthy and huge, they offer our earth water, a wetland habitat and above all protection from the satanic lamp in the sky! This yellow thing represents the antithesis to our real "Magic Sun". You should always ask, to whom this lamp, burning everything good and emaciating the greens, is doing any good. Trees of life (Walnut) offer a further advantage: No trash grows under them, like grains, which only poisons humans and animals. The Tree of life maintains the life, for example hemp grows like magic under them, also hazelnut multiplies like weed there, linseed grows twice as fast, but not the poisonous stuff for humans, that those "children of devils" created just for the elimination of the pure race. Trees, when they grow dense and tall, are the natural roofs of our home. Once the middle kingdom consisted of 55 %, some researchers speak even of 75% forest.

Today, thanks to the children of the enemies of life, raging in a negative way - the GREEN PARTY Scum and all the party state - the German forest has already been minimized to 26%. Therefore once again: Before you buy the new iPhone or some useless shit, plant trees even if it's only 20 a year! If every bright and upright person takes part in the planting - and we are already several hundred thousand - we alone will plant several million trees in our home country every year. Wonderful brothers and sisters are known to me, who acquired a lot of land in order to plant thousands of trees on it - **THANK YOU!**

The climate created by giant trees allows all lung diseases - all of them only the result of the wrong way of life - to completely heal within a few weeks. Under the roof of the walnut trees even the little bloodsuckers of Satan - mosquitoes and horseflies - have no justification, they take to flight from the *scent of life*. Growing on my own piece of land currently several hundred trees, 59 of which are walnut trees. I never had a horsefly or mosquito there, even though the bastardism around us is feeding on cruelty to animals and their destruction. Rural areas can hardly be imagined without such bloodsuckers, but at my family country home, you can't find any.

SILICON TREES! Once again: Trees of silicon ... Hexagonal structure, not plump carbon, has this message arrived? If not, please repeat the studying of the (R)EINHEITSGEBOTE from #1 onward. That is where we want to get to, to the silicon cell structure, with our body's own transformation, in order not to have to experience physical death.

Knowledge, wisdom, intelligence – **THE PROTECTORS OF LIFE** - now we know the reason, why Schadden (Jehovah/Yahweh) considered these wonderful, millennia-old creatures as his enemies and destroyed them. The separation between us and our knowledge was the sudden plan of the All-Evil, but we have the knowledge and the sacred mission to revive the trees with the best natural fertilizer, which only the purest among us are able to obtain. Our noble and the future-building cooperation is, apart from mastering all the trials of this world, our entrusted task.

Does anyone really think that these stumps are mountains of stone? >>>>
No way! In Arizona once stood the largest representatives of massive original tree giants. Their roots showed the way for numerous researchers, to discover the great, to integrate the knowledge of the amazing old secret about the revival, that has now begun, into the humanity striving for knowledge. Those giant trees can be revived many times over and this is more

important, than creating a new empire. The latter has no benefit at first, since a few keep determining about YOUR LIFE! You can plant trees at any time, you are able to fertilize them without financial effort and with your heroic deed you can bring the entire being of Irtha back to the old HEALTH. If the HEIL of Irtha grows, so does the HEIL of each individual involved. The gap between stupid and wise goes even further into separation, with the ultimate result, "stupid" must either adapt itself "wisely" or disappear into oblivion.

The supernatural root system of the fossilizing giant trees, weathered over many thousands of years, shows us, of what enormous dimensions these giants of the earth once were. In them lived species, which today have long been extinct. After malicious elimination of our gigantic, affectionately minded tree friends came the drought, deserts formed, where once humid vegetation reigned and everything grew well. To create balance, mankind invented the dirt, which he calls food and even feeds this to his

animals, like poisonous corn. The animals are wasting away miserably, due to such criminal offense, and by the law of CAUSE and EFFECT, the people committing such evil, also pass away.

Until 6,000 years ago in the middle of our HEIMATH stood one of the largest trees of the middle kingdom, in what is now a sacred area. Emperor Wilhelm II. built a monument on a tree - massif extending about 12,700 meters in diameter. Unfortunately the people are not made to think, they believe the false lies, that they have been told. Below, under this monument, lives the spirit of Wodan, in the Wodans-mountain, so the old narrative. WHO has already solved the riddle of all knowledge and recognized the resulting wisdom, that dwells under the Kyffhäuser? Granted, if I would not have my family chronicles with records of more than 1,100 years of history, knowledge would have also remained hidden for me.

Here, at the place of the meeting,
lies the knowledge of all truth about
our homeland, buried in the roots.
Here we find the nourishing health
and all salvation of our ancestors,
the giant trees. If we act wisely now,
we can re-create the great. This work
is not a task, that is impossible to
master. Each of us pure ones is
called upon to participate.

In Liebe und Verbundenheit,
:*friedrich wilhelm thomas* aus dem Hause Neubert
(As always, so also today: Pass on this message to the millions within our pure folk!)
